DISCLAIMER

Active trading is an activity that possesses a high level of risk and may not be suitable for everyone. While the methods and strategies of trading used by MW Financials described herein are believed to be effective, there is no guarantee that the methods or strategies will be profitable in the future, since there is always a risk of loss in trading.

Since that is true, no one involved in the production, distribution or creation of this document will assume liability for any losses that may be sustained by use of the methods and strategies of MW Financials described in this presentation.

MW Financials is not a securities brokerage firm, and holds no license or registration from the SEC and NASD, but is a private company engaged in trading and investing in securities.

WE'RE NOT INTERESTED IN YOUR MONEY. WE'RE ONLY INTERESTED IN YOUR FINANCIAL SUCCESS

Our question to you is, "Are you happy with your financial situation"?

If so, you don't need our services but you might want to try it since you don't have anything to lose.

If you answered no then you should seriously ask yourself what are you willing to do to change it? Are you willing to let us help?

HOW MUCH DO I NEED TO GET STARTED?

Before we go any further let's get right down to it and get money out of the way. Usually most financial institutions recommend their clients to deposit a minimum of \$30,000.00 in order to maximize their chances of success. But for a limited time we have lowered our minimum funds necessary to participate in our program to \$3,000.00. Why have we done this? In light of the adverse economic environment we all face today, we have seen a growing demand from a broad range of income levels that are looking for an opportunity to improve their financial situation.

We state this amount upfront for 4 reasons:

1. This is your number one question.
2. We are an upfront company.
3. We wouldn't want to waste your time.
4. It lets us know you're serious about changing your circumstances

Now that you know how much you need to get started, you can decide if improving your financial situation is worth it.

Even with that in mind, this program is not for everybody, only those who are serious about changing their financial situation.

WHO ARE WE?

MW Financials is an investment firm that specializes in growing our clients money by using proven income producing techniques based on several proprietary strategies.

MW Financials was started as a way for its founder to make some additional income while working full time. It wasn't always easy due to the demands of a full time job taking up a majority of the time.

Over the years, there were a host of employment challenges that included:

- Reorganizations
- Restructures
- Downsizing efforts
- Position elimination
- And the displeased boss

During these times, trading became the sole source of income until the next job came along. And in this time frame, friends asked to become clients and they weren't disappointed by the results. This went on for several years and in that time it became apparent that all jobs seem to underpay their employees if you weren't in an executive position.

One day a conscious decision was made by the founder, that focusing full time on this venture was the way to go if financial goals and dreams were to be realized, and with that, MW Financials was born.

So if you're looking for a trustworthy company that can:

- Relate to being in your financial position
- Manage and give you the upper hand on your finances
- Give you a **GUARANTEE** that your hard earned money could be secured...

Then MW Financials is who you should call.

WHAT WE CAN DO FOR YOU?

Companies generally raise money for a multitude of reasons such as staying in business, expanding operations or funding new ventures. The great thing is MW Financials doesn't need to raise capital because we are adequately funded and generate consistent earnings.

People give money to so-called "professionals" or spend thousands to purchase the latest financial infomercial products to the tune of almost a **BILLION** dollars a year. What do both of these things have in common??

- They **CANNOT** guarantee you won't lose any money.
- The rate of failure is **HIGH**.
- Usually by the time you get comfortable and learn their program, you will be outside of the refund period.

In the case of the latter, you have already lost money!! This is money that could have been used for our program, with the peace of mind that your funds could retain their full value.

Rather than sell you our system and hope you do well, we just do it for you. The money you deposit with us is used to **BENEFIT YOU** by allowing you to profit on our investment expertise and capitalization. We make money in down markets the same as we do in an up market. The market strategies we use work no matter which way the market moves.

See if you can answer this question:

When we're not feeling well, we go to the doctor.

When our car breaks down, we go to the mechanic.

But when our finances are broken we go where??? _____ <fill in the blank>

In the case of the doctor and mechanic, after our problem has been fixed and the bill has been paid they offer no guarantee that the problem won't come back again or that there won't be another one. Most importantly, they definitely won't refund your money and will be happy to bill you for a return visit.

If your finances are broken let us fix it. We've been doing it for years. At least you know your funds are being guaranteed. With that in mind, **YOU HAVE EVERYTHING TO GAIN!!!**

OBSTACLES PREVENTING YOUR SUCCESS

FEAR OF LOSS

Did you know fear is the number one reason people fail to get ahead in life? People fear losing their hard earned money; especially when they're handing it over to someone they don't know.

We know you've all heard of Sony's PlayStation 3. Let us give you a little known fact. Did you know that with all of its popularity, according to a Business Week article, it has been "**A MONEY-LOSER FROM THE DAY IT HIT THE STORE SHELVES**"? Why do they keep making them? Partly, they can afford to, due to other areas of their business making money to offset those losses. If Sony feared losing money on this gaming system think about how much money they wouldn't have made on game system accessories.

Sometimes the failure of a loss can actually generate success elsewhere.

UNDER CAPITALIZED

Every business has a suggested start up cost to help increase the chances of success.

Most people who attempt trading do so without having enough capital to reach their financial goals. Either they don't realize it at the time or they do know it and try it anyway. Just as with any other business this further increases your chances of failure or the ability to do anything other than tread water by breaking even.

We have found that by being under capitalized what people quickly realize is:

- How mentally hard it is to take a loss !!!
- How hard it is to make money after commissions and fees.
- They tend to purchase the wrong stocks.

A lot of investors have started out as traders. They wound up hanging on to a losing stock longer than anticipated in the hopes that the stock would at least return to break even. Sometimes this could take weeks or months, and in some cases it doesn't happen at all.

If the trader had been properly capitalized they may have been able to absorb that loss and move on to the next trade.

OBSTACLES PREVENTING YOUR SUCCESS

TIME

We take time to prepare for just about everything in life, however, many people spend more time thinking about success than actually preparing for it.

Because of a full time job, family responsibilities, school or just the everyday things we do in life, most potential clients don't have the time to create additional income.

Time is money and every second of the market day money is made and money is lost. If you're not in the market then you're not losing any money, **BUT** you're definitely not making any.

LACK OF KNOWLEDGE:

Imagine driving a car to a place you've never been to, without any directions on how to get there.

Most people see the markets as a way to make some money, but have no clue how to go about doing it. They get advice from people who know just as much as they do or even worse, from someone who knows even less. They believe that watching CNBC from time to time or looking at the business section of the newspaper is enough to become competent.

As with anything else, without the proper knowledge or directions you're almost destined to get lost. In this business that spells LOSSES. The market changes direction every second of the day. If a person is inexperienced they can find themselves never reaching their destination.

Now that we've identified some of the obstacles that could prevent your success, let us work for you by allowing us to:

- Use our knowledge of the markets to make the right trades
- Spend the necessary time you don't have, to improve your financial situation.
- Use our capital to increase your chances of success
- Our confidence in the market to overcome your apprehension or fear of it

FREQUENTLY ASKED QUESTIONS

CAN I WITHDRAW MY FUNDS AT ANY TIME?

We would prefer you keep your funds with us for at least six months before withdrawing them. However, your funds can be returned at any time.

CAN I DEPOSIT ADDITIONAL FUNDS AFTER MY INITIAL DEPOSIT?

We recommend that you defer depositing additional funds with us for at least six months. We want you to build your confidence, trust in our program and establish that it works for you first.

I'VE HEARD SO MANY THINGS ABOUT INVESTING, POSITIVE AND NEGATIVE.

Everything you've heard about investing is true!!!

DO YOU EVER LOSE MONEY?

***DEFINITELY**, rarely does a day go by when we haven't lost money in the market.*

IF THAT'S THE CASE THEN HOW CAN YOU MAKE A GUARANTEE?

Simply put, we make more money than we lose.

WHAT IF IT DOESN'T WORK?

*What if it does? Keep in mind it's your money, so you can have it back **anytime** you want. A healthy amount of skepticism is fair when it comes to investing your money. However, pessimism is definitely no way to enter into any investment. If you are pessimistic then wait for your optimism to arrive and then come back to us. We'll be waiting for you.*

YOU MENTIONED MY FUNDS ARE SECURED/GUARANTEED, WHAT GUARANTEE ARE YOU PROVIDING ME?

- 1. For a limited time only, we are guaranteeing no loss of capital on our Steady Income Generator program. This makes your investment in our program a **NO RISK** scenario for you.*
- 2. Your initial capital is preserved and can be returned to you in six months if you find that the program isn't for you **or sooner** if extenuating circumstances in your life prevail.*
- 3. We send you a check every month based on your calculated rate of return.*

FREQUENTLY ASKED QUESTIONS

WHAT OPTIONS ARE AVAILABLE FOR DEPOSITING FUNDS?

- Bank Wire
- ACH Transfer
- Certified Check
- Money Order
- Cash

WHAT CAN I DO IF I WANT TO JOIN THE PROGRAM BUT I DON'T HAVE ALL OF THE FUNDS TO DO IT?

We would suggest you look in the most common places.

- That **LOW** interest savings account
- That **LOW** interest bank CD*
- Cash advance from an available source*
- A loan from your 401K or TSA*
- A withdrawal from your annuity*
- Get your family and friends interested and pool your funds together
- Sell items around your house you no longer need or want. You'd be surprised at how quickly this adds up.
- Contact us for additional suggestions

WHAT IF I HAVE MORE QUESTIONS?

This material was not meant to and cannot possibly answer all of your questions. So by all means contact us at your convenience and we will be happy to answer any additional questions you may have.

**Please consult with your tax professional before using this option*

THINGS TO KEEP IN MIND

AVERAGE MINDSET

Work for money
Acquire liabilities

SUCCESSFUL MINDSET

Money works for me
Acquire assets

IT'S NOT HOW MUCH MONEY YOU MAKE BUT HOW MUCH YOU KEEP.

How often have you or someone you know left a job for a higher paying job? How long was it before that job didn't cover your expenses either? A higher paying job doesn't mean much if your expenses also increase.

NOTHING WILL CHANGE IF YOU KEEP DOING THE SAME THING

Your financial situation will not magically change if you keep doing the same thing

ALL SUCCESSFUL PEOPLE HAVE SUFFERED LOSSES ON THEIR WAY TO SUCCESS.

What if Michael Jordan had quit playing basketball in High School after the coach cut him from the basketball team?

SCARED MONEY DOESN'T MAKE MONEY.

What if Donald Trump had been afraid to invest his money?

PEOPLE TALK THEMSELVES OUT OF SUCCESS ALL OF THE TIME OR EITHER ALLOW SOMEONE ELSE TO TALK THEM OUT OF IT.

Don't be one of those people!!!

Did you know you are more apt to lend money to someone you know for nothing other than the hopes of getting it back, rather than taking an opportunity to let the same amount of money work for you and return a profit?

SUGGESTED READING MATERIAL

RICH DAD POOR DAD, ROBERT T. KIYOSAKI

- *One said, "When it comes to money, play it safe, don't take risks." The other said, "Learn to manage risk."*
- *If you work for money, you give the power to your employer. If your money works for you, you keep and control the power.*

THE RICHEST MAN IN BABYLON, GEORGE S. CLASON

- *Week after week, and month after month, I labored, yet for my earnings I had naught to show.*
- *I will talk to you of those things within the minds and lives of men which do work for or against their success.*

THINK AND GROW RICH, NAPOLEON HILL

- *Don't wait. The time will never be just right.*
- *Your big opportunity may be right where you are now.*
- *Always learn from your mistakes and never lose sight of your ultimate goal. With any loss there comes a more heightened awareness to fault or weakness. If something does not go according to plan, do not let it discourage you. Go back to the drawing board and pick up where you left off.*
